All Ushers For Church Service During The Summer Months

During the summer months our 9:00 AM services will be without the help of Tom Graybosch whose responsibility it was to lock-up after the service. In order to deal with this situation we are asking the ushers to lock-up after the 9:00 AM service. We have put together a list of the ushers assigned to these services. The name with the asterisk will be the usher who will have the responsibility to close if Chris or Pastor cannot close. This does mean that all the ushers can work together to close the Church after Sunday service.

Procedures To Be Followed:

1. If Chris Boccalupo or Pastor Wackenhuth are in attendance and they are in the building go to them and ask them if they can lock-up. If they are not there or tell you they cannot do it you will be responsible for closing the building with the help of the other ushers. If you are not going to be there please notify another member of your team so they can lock-up.
2. If you will need a key to lock the back door. There will be a key in the Vice President's mailbox in the lobby in an envelope with the code for the fire alarm. This key must be put back into the Vice President's box before the next Sunday.
3. Check all the doors to make sure they are locked. After this, go out the back door where you will see the alarm code box. I would suggest that you make sure the back door is locked before you set the alarm. Punch in the code and go out the back door.
4. If you need more instructions please contact Don Shaffer and he will explain the procedure to you. This, of course, would have to be done during the week since Don goes to church on Thursday.
